We refer to our earlier disclosures as follows:

1. November 19, 2019 regarding the Resolution of the Department of Energy (DOE) dated October 15, 2019 on Semirara Mining and Power Corporation's (SMPC) violation on the Accreditation of Coal Traders and Registration of Coal End-Users; and
2. November 20, 2019 regarding DOE's Letter-directive dated November 14, 2019 relative to the suspension of any and all mining activities of SMPC under Coal Operating Contract No. 5 as a result of the mudflow incident in its Molave Pit last October 2, 2019.

The DOE orders of suspension will result to opportunity loss in production per day from 40,000-45,000 MT. The financial impact, however, shall depend on the prevailing price of coal.

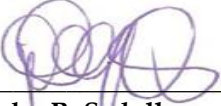

We advised however that as of today, total production is already at 14.5M MT which is 12% higher than total 2018 production of 12.9M MT. Moreover, coal shipment already reached 14.6M MT, 26% higher compared to 11.5M MT total shipment in 2018.

The Company shall update the Exchange on further developments on this matter.
